

BUSINESS QUESTIONS & STRATEGIC RECOMMENDATIONS REPORT

Business Question 1

Which product categories generate the most revenue?

Finding

The categories contributing the highest revenue are:

Bed Bath & Table

Health & Beauty

Computers & Accessories

Furniture & Decor

Watches & Gifts

Why It Matters

These categories represent the primary drivers of marketplace performance.

Recommendation

Focus marketing investment, inventory planning, and seller acquisition efforts on these categories to maximize revenue growth.

Business Question 2

What products do customers purchase most frequently?

Finding

Bed Bath & Table, Health & Beauty, and Sports & Leisure recorded the highest order volumes.

Business Insight

Customers consistently purchase products related to home improvement, personal care, and leisure activities.

Recommendation

Use these categories for:

Cross-selling campaigns

Product bundles

Promotional events

Business Question 3

Which geographic markets contribute the most revenue?

Finding

São Paulo contributes significantly more revenue than any other state.

Business Insight

The company's success is highly dependent on one region.

Recommendation

Diversify revenue sources by expanding marketing and logistics capabilities in emerging regions.

Business Question 4

What factors influence customer satisfaction?

Finding

Delivery speed shows the strongest relationship with review scores.

Customers receiving products faster tend to provide higher ratings.

Recommendation

Maintain delivery performance as a core business KPI and continuously monitor logistics efficiency.

Business Question 5

Are delivery delays affecting customer experience?

Finding

Yes.

Longer delivery times are associated with lower customer ratings.

Recommendation

Prioritize improvements in regions where delivery performance lags behind national averages.

Business Question 6

How valuable are repeat customers?

Finding

A small segment of customers generates disproportionately high revenue.

Business Insight

These customers represent a high-value segment that deserves targeted engagement.

Recommendation

Introduce a tiered loyalty program to encourage retention and increase lifetime value.

Business Question 7

Is customer sentiment positive overall?

Finding

Nearly 80% of customers leave ratings of 4 or 5 stars.

Business Insight

Customer trust in the marketplace is strong.

Recommendation

Leverage positive reviews within marketing campaigns and seller performance programs.

Business Question 8

Does the business experience seasonality?

Finding

Revenue peaks during Quarter 2 and declines significantly during Quarter 4.

Business Insight

Demand fluctuates throughout the year rather than growing consistently.

Recommendation

Develop targeted campaigns for slower periods and use historical trends for demand forecasting.

Business Question 9

What operational factor most influences delivery performance?

Finding

Freight cost was identified as one of the strongest influencers of delivery days.

Higher freight costs are generally associated with longer delivery times.

Recommendation

Optimize logistics operations through:

Better carrier negotiations

Route optimization

Regional distribution centers

Final Strategic Recommendations

Revenue Growth

Expand investment in top-performing categories.

Increase repeat purchase rates.

Build customer loyalty programs.

Develop personalized marketing campaigns.

Customer Experience

Continue improving delivery speed.

Enhance post-purchase communication.

Monitor customer feedback continuously.

Geographic Expansion

Reduce reliance on São Paulo.

Increase market penetration in emerging states.

Expand regional seller partnerships.

Operations & Logistics

Improve delivery performance in underserved regions.

Analyze freight costs and carrier efficiency.

Explore warehouse expansion opportunities.
